

Strategies For Hosting Dance Practice In Shared Spaces, by Deanna Peters/Mutable Subject

How to care for wood floor? Oil soap (all-natural), nail heads (hammer?), regular cleaning (when/who?).

Other cleaning supplies to be kept in space: vinegar, eco-friendly cleaner, atomizer, rags (who's gonna do the laundry?), mop, bucket (that can fit under tap in bathroom), push broom, dust pan, hand broom.

Arrive 20mins early to clean/tidy. Put on a song you like to clean to. Can you relate the physicality of cleaning to other aspects of your movement practice?

Make sure everyone has instructions on how to get to space. Let everyone know where the bathrooms are and any quirks about space.

Is there time before and after rehearsal, for 'warm up/cool down'?

Bikes inside or no?

Somewhere to put shoes, bags, hang clothes.

Is there drinking water?

What's the deal with garbage? When/where does it go out?

First aid kit, is it stocked?

No food left in space overnight.

Close windows when you leave. Make sure door is locked.
